9. <b>Freedom</b> Dreamcast Credits	06:16

All tracks composed, arranged and produced by Rafael Dyll

Recorded and mastered at  
soniQfactory Studio, Witten, Germany

Being a music composer and videogame fan at the same time has its merits. Particularly if you've always been into cross platform action packed games like R-Type, Gradius, Last Resort, Apidya, Turrican and Contra. The one merit is that you enjoy game audio in particular anyway, the other being that you may in fact get the chance to work on such a project yourself. Enter Last Hope by NG:DEV.TEAM, a remarkable action video game cartridge created for the NEO-GEO video game console and released 2006 on cartridge in limited numbers. NG:DEV.TEAM, based in Hannover, has made its name with excellent arcade like gameplay and technology that pushes the NEO-GEO to its visual, aural and hardware limits. Such was the overwhelming response in fact, that the game is now available on further, mass market and popular platforms, including Sega's Dreamcast with more extended 16-Bit audio. NG:DEV.TEAM and I have once more joined forces to bring to you the complete game music on Audio CD. This CD holds all tracks featured in the game, including the extended Dreamcast tracks and in full length, previously unreleased. In addition, the tracks have been given that extra CD treatment, mastered and equalised at soniQfactory Studio, for a great listening experience.

I would like to take this opportunity and thank the creative heads behind Last Hope, Timm & René, for their support and not least to the fans. I look forward to working on more games music on NEO-GEO, Dreamcast and whatever game machines in the future.

Peace Forever!

Rafael Dyll, Composer Last Hope
